

GREEN VALLEY RESIDENCY

A Premium Residential Apartment Community in Whitefield, Bengaluru

Developed by Green Valley Developers Pvt. Ltd.

1. Project Overview

Green Valley Residency is a landmark premium residential apartment community developed by Green Valley Developers Pvt. Ltd., strategically located in the heart of Whitefield, Bengaluru, Karnataka. Conceived as a sanctuary of modern living amid the rapid urbanization of East Bengaluru, the project blends contemporary architecture, expansive green landscaping, and thoughtfully engineered infrastructure to deliver a lifestyle that balances comfort, convenience, and long-term value. The vision behind Green Valley Residency is to create a self-sufficient, community-oriented neighbourhood where families, working professionals, and investors alike can find a home that meets both everyday needs and aspirational living standards.

The architectural design draws inspiration from contemporary tropical-modern aesthetics, characterised by clean geometric lines, large glass facades for natural light, ventilated balconies, and a low-density layout that maximises open space between towers. Only 38 percent of the total land parcel is used for the built structure, while the remaining 62 percent is dedicated to landscaped gardens, walking plazas, water bodies, and recreational zones. This design philosophy ensures that residents enjoy an abundance of natural light, cross-ventilation in every apartment, and unobstructed views of greenery from most units.

Green Valley Residency is designed primarily for nuclear and joint families seeking spacious, well-ventilated homes; working professionals employed in the numerous IT parks and technology campuses of Whitefield who value proximity to their workplace; and investors looking for a property with strong rental demand and consistent capital appreciation. The community atmosphere is designed to encourage social interaction through communal courtyards, a central amphitheatre, jogging tracks, and multiple recreational clubs, while also offering complete privacy within each residence through soundproofed walls and thoughtfully staggered apartment layouts.

Sustainability is a cornerstone of the project. Green Valley Residency incorporates rainwater harvesting pits at every tower, a dedicated sewage treatment plant (STP) that recycles 100 percent of wastewater for landscaping and flushing purposes, rooftop solar panels that power all common area lighting, and a comprehensive organic waste converter that processes kitchen waste into compost for the on-site gardens. These initiatives collectively reduce the community's dependency on municipal water supply by nearly 45 percent and lower the common area electricity bill by an estimated 30 percent annually.

Security and safety have been engineered to institutional-grade standards. The entire perimeter is monitored using high-definition CCTV cameras with 90-day storage retention, biometric and RFID-based access control at all tower entrances, round-the-clock trained security personnel, and a centralised command control room. Fire safety compliance includes wet riser systems, sprinklers in all common areas and basements, smoke detectors in every apartment, fire refuge areas on alternate floors, and an automatic fire alarm system linked to the local fire department. The entire structure is designed and certified to withstand seismic activity up to Zone III standards, with reinforced shear walls and a raft foundation engineered by a certified structural consultancy.

Every apartment at Green Valley Residency comes pre-wired for smart home integration, allowing residents to control lighting, main door locks, air conditioning, and curtains through a mobile application. Video door phones are linked to the main security gate, enabling residents to grant visitor access remotely. Taken together, these features position Green Valley Residency as one of the most comprehensively planned residential communities in the Whitefield micro-market.

Key Project Facts

Attribute	Details
Total Land Area	8.6 acres
Number of Towers	7 towers (Tower A to Tower G)
Number of Floors	G + 18 floors per tower (Tower G: G + 22, designated as the premium tower)
Total Apartments	1,142 units across 2 BHK, 3 BHK, and 3 BHK+Study configurations
Possession Date	March 2028 (phased handover beginning December 2027 for Towers A, B, and C)
RERA Registration Number	PRM/KA/RERA/1251/446/PR/030624/006789
Construction Status	Structural work completed for Towers A-D; superstructure ongoing for Towers E-G as of the current reporting quarter
Approving Authority	Bruhat Bengaluru Mahanagara Palike (BBMP) and Karnataka RERA

Project Highlights

- Low-density development with only 38% ground coverage, ensuring wide open spaces and unobstructed ventilation.
- 7 architecturally distinct towers connected by a central landscaped promenade and water-themed plaza.
- 100% power backup for common areas and essential apartment loads including lifts, lighting, and water pumps.
- Dedicated 45,000 sq. ft. clubhouse with resort-style amenities.
- IGBC (Indian Green Building Council) Gold pre-certification for sustainable design and construction practices.
- Vaastu-compliant apartment layouts across all configurations.
- Dedicated EV charging infrastructure in every basement parking level.
- On-site retail plaza with convenience store, pharmacy, and café for daily needs.

Eco-Friendly and Safety Infrastructure

Water Management

The community operates a fully automated Sewage Treatment Plant (STP) with a capacity of 450 kilolitres per day (KLD), sufficient to treat 100 percent of the wastewater generated on-site. Treated water is reused for landscape irrigation, flushing, and road washing, significantly reducing dependency on Cauvery water supply and borewells. Additionally, rainwater harvesting structures with a combined recharge capacity of 120,000 litres have been installed across the property, replenishing groundwater tables and supplementing the borewell network during the dry season.

Solar Energy Usage

A 250 kWp rooftop solar photovoltaic installation spans the terraces of all seven towers, generating clean energy that powers common area lighting, lift lobbies, garden pathways,

and the clubhouse. This installation is estimated to offset approximately 310 tonnes of carbon dioxide emissions annually and reduces the common area electricity expenditure that would otherwise be borne by residents through maintenance charges.

Waste Management

Green Valley Residency follows a strict source-segregation policy, with color-coded bins provided in every apartment for wet, dry, and hazardous waste. An organic waste converter (OWC) with a 500 kg per day capacity processes kitchen and garden waste into compost, which is used to nourish the landscaped gardens. Dry waste is channelled to authorised recyclers through a tie-up with a certified municipal waste management vendor.

Fire Safety Systems

The project is equipped with a wet riser and down-comer firefighting system, automatic sprinklers in basements and common corridors, smoke and heat detectors in every apartment and lobby, manually operated fire alarm call points on every floor, and two fire refuge areas per tower positioned at alternating levels as mandated by the National Building Code of India. Fire tenders can access all towers via a dedicated 6-metre-wide fire lane encircling the property.

Earthquake-Resistant Structure

The structural design follows IS 1893 seismic code provisions for Zone III, incorporating a raft foundation, shear walls at strategic locations, and ductile detailing of reinforced concrete members. The structural design has been certified by an independent structural engineering consultancy and is periodically audited during construction milestones.

Smart Home Integration

Every apartment is pre-wired with home automation infrastructure enabling app-based control of main door locks, living room and bedroom lighting circuits, and video door phone integration with the main gate security system. Residents can grant temporary access codes to guests, domestic staff, or delivery personnel remotely through the Green Valley Residents' mobile application.

2. Location Details

Green Valley Residency is located at Survey No. 114/2, Varthur Main Road, Whitefield, Bengaluru, Karnataka 560066. Whitefield has evolved over the past two decades from a quiet suburb into one of Bengaluru's most sought-after residential and commercial corridors, driven primarily by the presence of major IT parks, multinational corporate campuses, and a rapidly improving infrastructure network including the Namma Metro Purple Line extension. The location offers an exceptional combination of workplace proximity, social infrastructure, and long-term appreciation potential, making it one of the most desirable addresses in East Bengaluru.

Proximity to Key Landmarks

Category	Landmark	Approx. Distance	Travel Time
Schools	Vydehi School of Excellence	1.8 km	6 minutes
Schools	Ryan International School, Kadugodi	3.2 km	10 minutes
Hospitals	Vydehi Institute of Medical Sciences	1.5 km	5 minutes
Hospitals	Columbia Asia Hospital, Whitefield	4.5 km	14 minutes
Shopping Malls	Phoenix Marketcity, Whitefield	6.0 km	18 minutes
Shopping Malls	Forum Shantiniketan Mall	4.2 km	13 minutes
Metro Station	Kadugodi Tree Park Metro Station (Purple Line)	2.7 km	8 minutes
Railway Station	Whitefield Railway Station	5.5 km	16 minutes
Airport	Kempegowda International Airport	38 km	55-70 minutes (traffic dependent)
IT Parks	ITPL (International Tech Park Bengaluru)	5.8 km	17 minutes
IT Parks	Prestige Tech Park & EPIP Zone	6.5 km	20 minutes
Restaurants	Whitefield Main Road dining cluster	2.0 km	7 minutes
Parks	Kadugodi Tree Park	2.9 km	9 minutes
Banks	HDFC Bank, ICICI Bank, Axis Bank branches	1.0-2.5 km	3-8 minutes
Fuel Stations	Indian Oil & HP outlets on Varthur Main Road	0.8 km	3 minutes
Medical Stores	Apollo Pharmacy, MedPlus outlets	0.5-1.5 km	2-5 minutes

Category	Landmark	Approx. Distance	Travel Time
Bus Terminals	Whitefield Bus Terminal (BMTC)	4.0 km	12 minutes
Movie Theatres	PVR Phoenix Marketcity	6.0 km	18 minutes
Universities	Vellore Institute of Technology (VIT-AP City Campus, Bengaluru)	7.5 km	22 minutes
Supermarkets	Star Bazaar, More Megastore	1.2-3.0 km	4-9 minutes

Road and Transit Connectivity

Green Valley Residency enjoys direct frontage on Varthur Main Road, a major arterial connecting Whitefield to Sarjapur Road and Outer Ring Road, providing residents with multiple route options to reach various parts of the city while avoiding single-corridor congestion. The Outer Ring Road (ORR) junction is approximately 8 kilometres away, offering swift access to Marathahalli, HAL Airport Road, and Electronic City via the Elevated Expressway. The Namma Metro Purple Line extension to Whitefield, operational since 2023, has significantly reduced dependency on road transport for daily commuters, with the nearest station, Kadugodi Tree Park, being a short 8-minute drive or a 15-minute walk from the project gate.

Peak-hour traffic on Varthur Main Road and the ITPL Main Road corridor remains moderate to heavy between 8:30 AM and 10:30 AM, and again between 6:00 PM and 8:30 PM, consistent with the high concentration of IT employees commuting to nearby tech parks. However, the completion of the Metro Purple Line extension and the ongoing widening of Varthur Road to six lanes are expected to ease congestion considerably over the next two to three years.

Upcoming Infrastructure Developments

- Namma Metro Purple Line further extension planning towards Whitefield KR Puram loop, improving last-mile connectivity.
- Peripheral Ring Road (PRR) project, expected to enhance connectivity between Whitefield, Hennur, and Tumkur Road corridors upon completion.
- Widening of Varthur Main Road to a six-lane carriageway with dedicated service roads, currently under execution by BBMP.
- Proposed satellite township development near Varthur Lake, expected to add further social infrastructure including schools and hospitals.
- Expansion of ITPL and EPIP Zone with new Grade-A office towers, expected to add over 3 million sq. ft. of commercial space by 2029.

Employment Hubs Nearby

Whitefield hosts one of Bengaluru's largest concentrations of IT and technology employment, including International Tech Park Bengaluru (ITPL), the EPIP Zone housing campuses of major multinational corporations, Prestige Tech Park, Brigade Tech Gardens, and RMZ Ecoworld located a short drive away via Marathahalli. Collectively, these employment hubs house an estimated 250,000 working professionals, forming a strong and consistent base of rental and ownership demand for residential properties within a 5-kilometre radius of Green Valley Residency.

Appreciation Potential

Whitefield has historically recorded property price appreciation of 8 to 11 percent annually over the past five years, driven by sustained IT sector expansion, metro connectivity, and limited availability of new land parcels for large-format residential development. Real estate analysts tracking the East Bengaluru corridor project continued appreciation in the range of 9 to 13 percent annually over the next five years, supported by the completion of the Peripheral Ring Road and further metro network expansion. Green Valley Residency, being one of the few remaining large-format gated communities with direct arterial road frontage in this micro-market, is well positioned to benefit from this sustained demand and infrastructure-led growth.

3. Apartment Configurations

2 BHK Residences

The 2 BHK apartments at Green Valley Residency range from 1,100 to 1,250 square feet and are priced starting at ₹82 Lakhs onwards. These homes are thoughtfully designed for nuclear families and working professionals who seek an efficient yet comfortable living space without compromising on quality or lifestyle amenities.

Feature	Description
Living Room	Spacious living area of approximately 180-210 sq. ft. with large sliding windows opening onto the balcony, allowing abundant natural light.
Dining Area	Semi-open dining space adjoining the kitchen, comfortably accommodating a 4-to-6 seater dining table.
Kitchen	Modular-ready kitchen with granite countertop provision, dedicated exhaust ventilation, and plumbing points for both a wet and dry sink.
Utility Area	Separate utility balcony for washing machine and utility storage, with dedicated drainage and water points.
Bedrooms	Master bedroom of approximately 130-150 sq. ft. with attached bathroom and wardrobe niche; second bedroom of approximately 110-120 sq. ft.
Bathrooms	Two bathrooms with anti-skid vitrified tile flooring, concealed plumbing, and premium sanitaryware fittings from a reputed brand.
Balcony	Ventilated balcony attached to the living room, sized to accommodate seating or planters.
Ventilation & Lighting	Cross-ventilated layout with windows on at least two sides, ensuring natural airflow and daylight in all habitable rooms.
Flooring	Vitrified tile flooring in living, dining, and bedrooms; anti-skid ceramic tiles in bathrooms and utility area.
Doors & Windows	Engineered wood main door with digital lock provision; UPVC windows with mosquito mesh throughout.
Electrical Fittings	Concealed copper wiring, modular switches, and adequate power points in every room including provisions for air conditioners.
Plumbing	CPVC and PVC piping with concealed plumbing lines and provision for water purifier connection in the kitchen.
Smart Home Features	Video door phone, smart main door lock, and app-based control for living room lighting.
Storage Spaces	Built-in wardrobe niches in both bedrooms and overhead loft storage in the utility area.

3 BHK Residences

The 3 BHK apartments range from 1,500 to 1,750 square feet and are priced starting at ₹1.12 Crore onwards. These residences are designed for growing families and professionals who require an additional room for a home office, guest accommodation, or children's study space, while enjoying a larger, more elaborate layout throughout.

Feature	Description
Living & Dining	Combined living and dining space of approximately 320–360 sq. ft. with a distinct zoning created through false ceiling design and flooring pattern.
Kitchen	L-shaped modular-ready kitchen with dedicated wet and dry zones, granite countertop provision, and a separate provision for a chimney.
Utility & Wash Area	Enclosed utility area with space for washing machine, dryer, and additional storage racks.
Bedrooms	Master bedroom with attached bathroom and walk-in wardrobe provision; two additional bedrooms suitable as a children's room and study or guest room.
Bathrooms	Three bathrooms, including one attached to the master bedroom, all finished with premium sanitaryware and anti-skid flooring.
Balconies	Two balconies — one attached to the living room and one to the master bedroom — both ventilated and suitable for outdoor seating.
Floor Plans	Available in both standard and mirror-image layouts across different stack positions within each tower; detailed floor plans provided at the sales office.
Carpet Area	1,320–1,540 sq. ft. depending on unit orientation and tower.
Super Built-up Area	1,500–1,750 sq. ft., inclusive of proportionate common area share.
Parking	One covered car parking slot included; additional slot purchasable at prevailing rates.
Visitor Parking	Dedicated visitor parking bays located near each tower entrance, monitored by security personnel.
EV Charging	EV charging points available in basement parking levels on a pay-per-use or dedicated installation basis.
Lift Access	Three high-speed automatic lifts per tower, including one stretcher-compatible lift for emergencies.
Pet-Friendly Features	Designated pet relief zones in the landscaped garden areas and pet-friendly common area policies.
Elderly Accessibility	Ramps at all entrance lobbies, handrails in common corridors, and at least one lift in every tower sized for wheelchair access.

Additional Configuration Notes

A limited number of 3 BHK + Study apartments, ranging from 1,850 to 1,950 square feet, are available exclusively in the premium Tower G, offering an additional enclosed study room ideal for a home office. All apartment configurations are Vaastu-compliant, with main entrances and kitchen placements adhering to traditional Vaastu principles. Sample apartments for both 2 BHK and 3 BHK configurations are available for physical inspection at the project site, and detailed CAD floor plans can be obtained from the sales office upon request.

4. Amenities

Green Valley Residency offers an extensive suite of lifestyle, wellness, sporting, and convenience amenities spread across a dedicated 45,000 sq. ft. clubhouse and expansive landscaped grounds, designed to cater to residents of every age group.

Wellness and Recreation

- **Clubhouse:** A three-level, 45,000 sq. ft. clubhouse featuring a multipurpose hall, indoor games room, gymnasium, and rooftop lounge.
- **Swimming Pool:** A 4,500 sq. ft. resort-style swimming pool with a separate temperature-controlled children's pool and pool deck seating.
- **Gymnasium:** A fully equipped, air-conditioned gymnasium spanning 2,200 sq. ft. with cardio, strength training, and free-weight zones, supervised by a certified trainer during peak hours.
- **Yoga Hall:** A dedicated 900 sq. ft. yoga and aerobics hall with wooden flooring and natural light.
- **Meditation Center:** A tranquil meditation garden and indoor meditation room designed for quiet reflection, surrounded by landscaped plantings.
- **Indoor Games:** Table tennis, billiards, chess, and carrom facilities located within the clubhouse.

Sports Facilities

- **Outdoor Sports Courts:** Multi-purpose courts for volleyball and futsal.
- **Cricket Practice Net:** A full-length cricket practice net with synthetic turf and bowling machine provision.
- **Basketball Court:** Half-court basketball facility with night lighting.
- **Tennis Court:** A single standard-size tennis court available on a booking basis.
- **Badminton Court:** Two dedicated badminton courts, one indoor and one outdoor.
- **Jogging Track:** A 1.2 km landscaped jogging track encircling the property's central garden zone.
- **Cycling Track:** A dedicated 900-metre cycling track separate from the pedestrian jogging path.

Community and Family Amenities

- **Children's Play Area:** Multiple themed play zones with safety flooring, distributed across different garden clusters.
- **Senior Citizen Park:** A dedicated park with shaded seating, walking paths, and low-impact exercise equipment designed for elderly residents.
- **Community Hall:** A 3,500 sq. ft. banquet-style community hall suitable for functions, festivals, and resident association meetings.
- **Mini Theatre:** A 40-seat private mini theatre within the clubhouse, bookable for private screenings.
- **Business Lounge & Coworking Space:** A dedicated coworking space with high-speed internet, meeting rooms, and printing facilities for residents working from home.
- **Library:** A quiet reading room stocked with books, periodicals, and children's literature.
- **Café:** An in-community café serving beverages and light snacks, located near the clubhouse entrance.

- Convenience Store: An on-site convenience store stocking daily essentials and groceries.
- Guest Rooms: Two furnished guest rooms available for residents to book for visiting family and friends.
- Party Lawn & Amphitheatre: A landscaped party lawn and open-air amphitheatre used for community events, festivals, and cultural performances.

Sustainability and Safety Amenities

- Landscaped Gardens: Over 5.3 acres of landscaped green area featuring native and drought-tolerant plant species.
- Rainwater Harvesting: Multiple recharge pits and storage tanks integrated across the property.
- Solar Lighting: Solar-powered pathway and garden lighting throughout common areas.
- 24×7 Security: Trained security personnel stationed at all entry and exit points around the clock.
- Biometric Entry: Biometric and RFID access control at tower lobbies and the clubhouse.
- CCTV Surveillance: Comprehensive CCTV coverage of common areas, parking levels, and perimeter walls.
- Intercom: Video intercom connectivity between apartments, the main gate, and the security control room.
- Power Backup: 100% power backup for common areas and essential apartment loads.
- Water Purification: Centralised water treatment plant supplying purified water to all apartments.
- Maintenance Services: Dedicated facility management team handling housekeeping, landscaping, and technical maintenance.
- Waste Segregation: Colour-coded waste segregation bins and a dedicated organic waste converter unit.

5. Pricing, Payment Plan, and Investment Potential

Indicative Pricing

Configuration	Area (Super Built-up)	Price Range
2 BHK	1,100 – 1,250 sq. ft.	₹82 Lakhs – ₹98 Lakhs
3 BHK	1,500 – 1,750 sq. ft.	₹1.12 Crore – ₹1.38 Crore
3 BHK + Study (Tower G)	1,850 – 1,950 sq. ft.	₹1.55 Crore – ₹1.68 Crore

Payment Plan

Green Valley Residency offers a construction-linked payment plan (CLP) designed to align payments with construction milestones, reducing upfront financial burden on buyers.

Milestone	Payment (% of Total Cost)
Booking Amount	10%
Agreement of Sale (within 30 days of booking)	10%
On Completion of Foundation	10%
On Completion of Plinth	10%
On Completion of Each Slab (per floor, cumulative)	25%
On Completion of Brickwork and Internal Plaster	10%
On Completion of Flooring and Fittings	10%
On Completion and Handover (Possession)	15%

Additional Charges

Charge Type	Approximate Amount
Registration & Stamp Duty	As per Karnataka government rates (approx. 5–6% of property value)
GST	5% for under-construction property (no GST after completion certificate)
Maintenance Charges	₹3.50 per sq. ft. per month
Clubhouse Membership (one-time)	₹1,25,000 for 2 BHK; ₹1,50,000 for 3 BHK
Additional Covered Parking Slot	₹2,50,000 per slot
Legal & Documentation Charges	₹35,000 (approximate)

Bank Loan Partners and EMI Examples

Green Valley Residency is approved for home loan financing by leading nationalised and private banks, including State Bank of India, HDFC Bank, ICICI Bank, Axis Bank, and LIC Housing Finance. For illustration, a home loan of ₹65 Lakhs at an indicative interest rate of 8.5% per annum over a 20-year tenure results in an approximate EMI of ₹56,400 per month. A loan of ₹90 Lakhs under the same terms results in an approximate EMI of ₹78,100 per month. Actual EMI amounts will vary based on the applicant's credit profile, the prevailing interest rate at the time of disbursement, and the chosen tenure.

Why Invest in Green Valley Residency

Whitefield's sustained IT sector growth, combined with improving metro connectivity and limited large-format land availability, makes Green Valley Residency a compelling investment opportunity. Rental yields in the Whitefield micro-market currently range between 3.2 and 3.8 percent annually, among the highest in Bengaluru, driven by strong demand from IT professionals seeking rental accommodation close to their workplace. A well-maintained 2 BHK apartment in this locality typically commands monthly rent between ₹28,000 and ₹35,000, while 3 BHK units command between ₹38,000 and ₹48,000 per month.

Based on historical appreciation trends in Whitefield and projected infrastructure developments including the Peripheral Ring Road and further metro expansion, industry analysts estimate capital appreciation of 40 to 55 percent over a five-year holding period for well-located gated communities such as Green Valley Residency. Target buyers for this project include IT and technology professionals seeking end-use homes, NRI investors seeking a stable asset in a high-growth corridor, and domestic investors seeking rental income combined with capital appreciation.

As with any real estate investment, prospective buyers should be aware of inherent risks, including potential construction delays, fluctuations in the broader real estate market, changes in interest rates affecting financing costs, and regulatory changes. Green Valley Developers Pvt. Ltd. mitigates construction-related risk through RERA-mandated escrow account management and regular third-party construction audits, and buyers are encouraged to review the RERA project page for real-time construction updates.

Comparison with Nearby Competing Projects

Project	Location	Starting Price (2 BHK)	Key Differentiator
Green Valley Residency	Varthur Main Road, Whitefield	₹82 Lakhs	Low-density layout, IGBC Gold pre-certified, 45,000 sq. ft. clubhouse
Prestige Lakeside Habitat (indicative)	Varthur Road	₹95 Lakhs	Larger township scale, lake-facing units
Brigade Cornerstone Utopia (indicative)	Varthur	₹78 Lakhs	Larger integrated township with retail

Project	Location	Starting Price (2 BHK)	Key Differentiator
Sobha Dream Acres (indicative)	Panathur Road	₹68 Lakhs	Higher density, smaller unit sizes

6. Frequently Asked Questions

Q: Is Green Valley Residency RERA approved?

A: Yes, the project is registered under Karnataka RERA with registration number PRM/KA/RERA/1251/446/PR/030624/006789. The RERA certificate and quarterly construction updates are available on the Karnataka RERA website and at the sales office.

Q: Are pets allowed in the community?

A: Yes, Green Valley Residency is a pet-friendly community. Designated pet relief zones are provided in the landscaped garden areas, and residents are requested to follow the community's pet policy regarding leashing and waste disposal in common areas.

Q: Is covered parking available for all apartments?

A: Yes, one covered car parking slot is included with every apartment. Additional covered parking slots can be purchased separately at ₹2,50,000 per slot, subject to availability.

Q: Can Non-Resident Indians (NRIs) purchase apartments here?

A: Yes, NRIs are eligible to purchase residential property in India under the guidelines set by the Reserve Bank of India (RBI) and the Foreign Exchange Management Act (FEMA). The sales team assists NRI buyers with documentation, power of attorney processes, and repatriation guidance.

Q: What banks provide home loans for this project?

A: The project is approved for home loan financing by State Bank of India, HDFC Bank, ICICI Bank, Axis Bank, and LIC Housing Finance, among other lenders. The sales office can facilitate introductions to relationship managers at these banks.

Q: Is there 24-hour security at the property?

A: Yes, the community is secured round the clock with trained security personnel, biometric and RFID access control at all tower entrances, CCTV surveillance of common areas and the perimeter, and a centralised security control room.

Q: How far is the nearest metro station?

A: The nearest metro station is Kadugodi Tree Park Station on the Namma Metro Purple Line, located approximately 2.7 km from the project, roughly an 8-minute drive or a 15-minute walk.

Q: What schools are located nearby?

A: Nearby schools include Vydehi School of Excellence (1.8 km) and Ryan International School, Kadugodi (3.2 km), along with several other reputed institutions within a 5-kilometre radius.

Q: Is there power backup for the apartments?

A: Yes, 100% power backup is provided for common areas including lifts, corridor lighting, and water pumps, as well as for essential loads within each apartment such as lighting points and a limited number of power sockets.

Q: Are there monthly maintenance charges?

A: Yes, the maintenance charge is ₹3.50 per square foot per month, covering housekeeping, landscaping, common area electricity, security, and upkeep of amenities. This charge is subject to periodic revision by the resident welfare association.

Q: What is the possession timeline for the project?

A: The overall possession date for the project is March 2028, with a phased handover beginning December 2027 for Towers A, B, and C, followed by the remaining towers in subsequent phases.

Q: Can buyers customize interiors before possession?

A: Limited customization options, such as flooring upgrades and modular kitchen selections, are available for buyers who book during the early construction phase. Requests should be routed through the sales office and are subject to the construction schedule at the time of the request.

Q: Is visitor parking available?

A: Yes, dedicated visitor parking bays are located near each tower entrance and are monitored by security personnel to ensure smooth access for guests.

Q: Is rainwater harvesting implemented at the property?

A: Yes, the property features multiple rainwater harvesting recharge pits and storage tanks with a combined recharge capacity of 120,000 litres, supplementing the groundwater table and reducing dependency on external water tankers.

Q: What is the cancellation policy?

A: In the event of cancellation, the booking amount and applicable charges are refunded as per the terms outlined in the Agreement for Sale, in compliance with RERA guidelines. A processing fee may be deducted depending on the stage of cancellation.

Q: What apartment configurations are available?

A: Green Valley Residency offers 2 BHK apartments (1,100–1,250 sq. ft.), 3 BHK apartments (1,500–1,750 sq. ft.), and a limited number of 3 BHK + Study apartments (1,850–1,950 sq. ft.) exclusively in Tower G.

Q: Is the project earthquake resistant?

A: Yes, the structural design complies with IS 1893 seismic code provisions for Zone III, incorporating a raft foundation and shear walls, and has been certified by an independent structural engineering consultancy.

Q: What amenities are included in the clubhouse?

A: The 45,000 sq. ft. clubhouse includes a gymnasium, swimming pool, yoga hall, indoor games room, mini theatre, business lounge, library, café, and a multipurpose hall for events.

Q: Is the project Vaastu-compliant?

A: Yes, all apartment configurations at Green Valley Residency are designed in accordance with traditional Vaastu principles, including entrance orientation and kitchen placement.

Q: What is the carpet area versus super built-up area difference?

A: Carpet area refers to the usable floor area within the walls of the apartment, while super built-up area includes the carpet area plus a proportionate share of common areas such as lobbies, staircases, and amenity spaces. For example, a 3 BHK with 1,650 sq. ft. super built-up area typically has a carpet area of approximately 1,430 sq. ft.

Q: Are EV charging points available?

A: Yes, EV charging points are available in the basement parking levels on both a pay-per-use basis and as dedicated installations for residents who own electric vehicles.

Q: Is the property suitable for elderly residents?

A: Yes, the project includes ramps at all entrance lobbies, handrails in common corridors, wheelchair-accessible lifts, and a dedicated senior citizen park with low-impact exercise equipment and shaded seating.

Q: What is included in the GST calculation?

A: GST is applicable at 5% of the property value for under-construction apartments without input tax credit, in line with current government regulations. No GST is applicable once the project receives its completion certificate.

Q: Does the project have a dedicated sewage treatment plant?

A: Yes, a 450 KLD capacity Sewage Treatment Plant treats 100% of the wastewater generated on-site, which is then reused for landscaping, flushing, and road washing purposes.

Q: Can buyers book a site visit before making a decision?

A: Yes, prospective buyers can schedule a site visit by contacting the sales office, submitting a request through the project website, or visiting the experience center directly during office hours. A complimentary pickup and drop facility from Kadugodi Tree Park Metro Station is available upon prior request.

Q: Is there a provision for smart home features?

A: Yes, every apartment is pre-wired for smart home integration, including a video door phone, smart main door lock, and app-based control for living room lighting circuits.
